SPECIALIZATIONS

AWS Associates Solutions Architect

Certificate 2020 in progress

Amazon

Data Structures and Algorithms

Specialization 2018-2019

University Of California San Diego

Software Design and Architecture

Specialization 2018-2019

University Of Alberta

Webflow Design

Specialization 2019-2020

Flux Academy

C# ASP.NET

SQL Server Administration

Specialization -2018

Udemy

SKILLS

Front-End

Webflow-Advanced

Bootstrap, css-grid, flex-box

Css, html, javascript

Ajax, JQuery

Back-End

C# ASP.NET

MS SQL

JSON

Amazon AWS

RELEVANT WORK

Founder/Full-Stack Development

ByteThis, LLC / JAN 2020 – Active

ByteThis LLC is run by Nicolas Carvajal. He offers his clients premium design web applications with Webflow and back-end implementation with Amazon's AWS Cloud Services.

- Full servicing from branding ideation to database management.
- Static & Dynamic content with Animations, Video, and Interactions.
- Integration with any 3rd party API/Service.

Software Developer

Vazkor Technologies / 2018 – 2020

4,000 + hours designing, developing, publishing, and delivering to satisfied clients alongside highly talented individuals. Developed my skills in enterprise level software using C# ASP.NET, MS SQL, Javascript, Css&Html, Ajax, and json.

- Delivered code support to site with 1,000,000 + users.
- Maintained, updated, added software to business logic on a daily basis..
- Implemented Email Systems, Registrations, Database Development, and much more.

EDUCATION

Master's Degree(partial)-Computer Science

Florida Atlantic University 2017-2019

After three semesters with outstanding grades and participating in challenges for NASA and research labs , I was able to land a full-time position at a coding firm specializing with microsoft's enterprise code structure.

I opted to finish school online through other more cost effective online college specializations that mimicked the classes I was to complete in my master's degree. This was all supervised by my previous employer.

I quickly noticed that all the knowledge I gained from full-time programming out weighed the debt burden I would have to endure to get the same level of pay in the tech world starting off.

Bachelors of Science- Finance

Florida State University 2014-2015

Finance was a passion of mine growing up. The complexity of the market and it's moving parts intrigued me deeply. This motivation drove me to getting dean's list achievements, high grades, and a degree completion before the age of 20.

When I finally began to enter the financial industry, I kept noticing that the majority of financial advisors were selling products that were not in the interest of the customer. It felt unwelcoming to me and I switched gears and went full throttle into another passion of mine. Computers.
